- ✓ Organization
- ✓ Mission
- ✓ Strategy for Distribution Management
- ✓ Delineation of Responsibilities
- ✓ Road to Full Operating Capability

U.S. Army Modularity

An Army based around smaller, self-contained organizations

- Optimized for specific mission capabilities
- Army-Centric
- Independent
- Large Logistics, Aviation Units

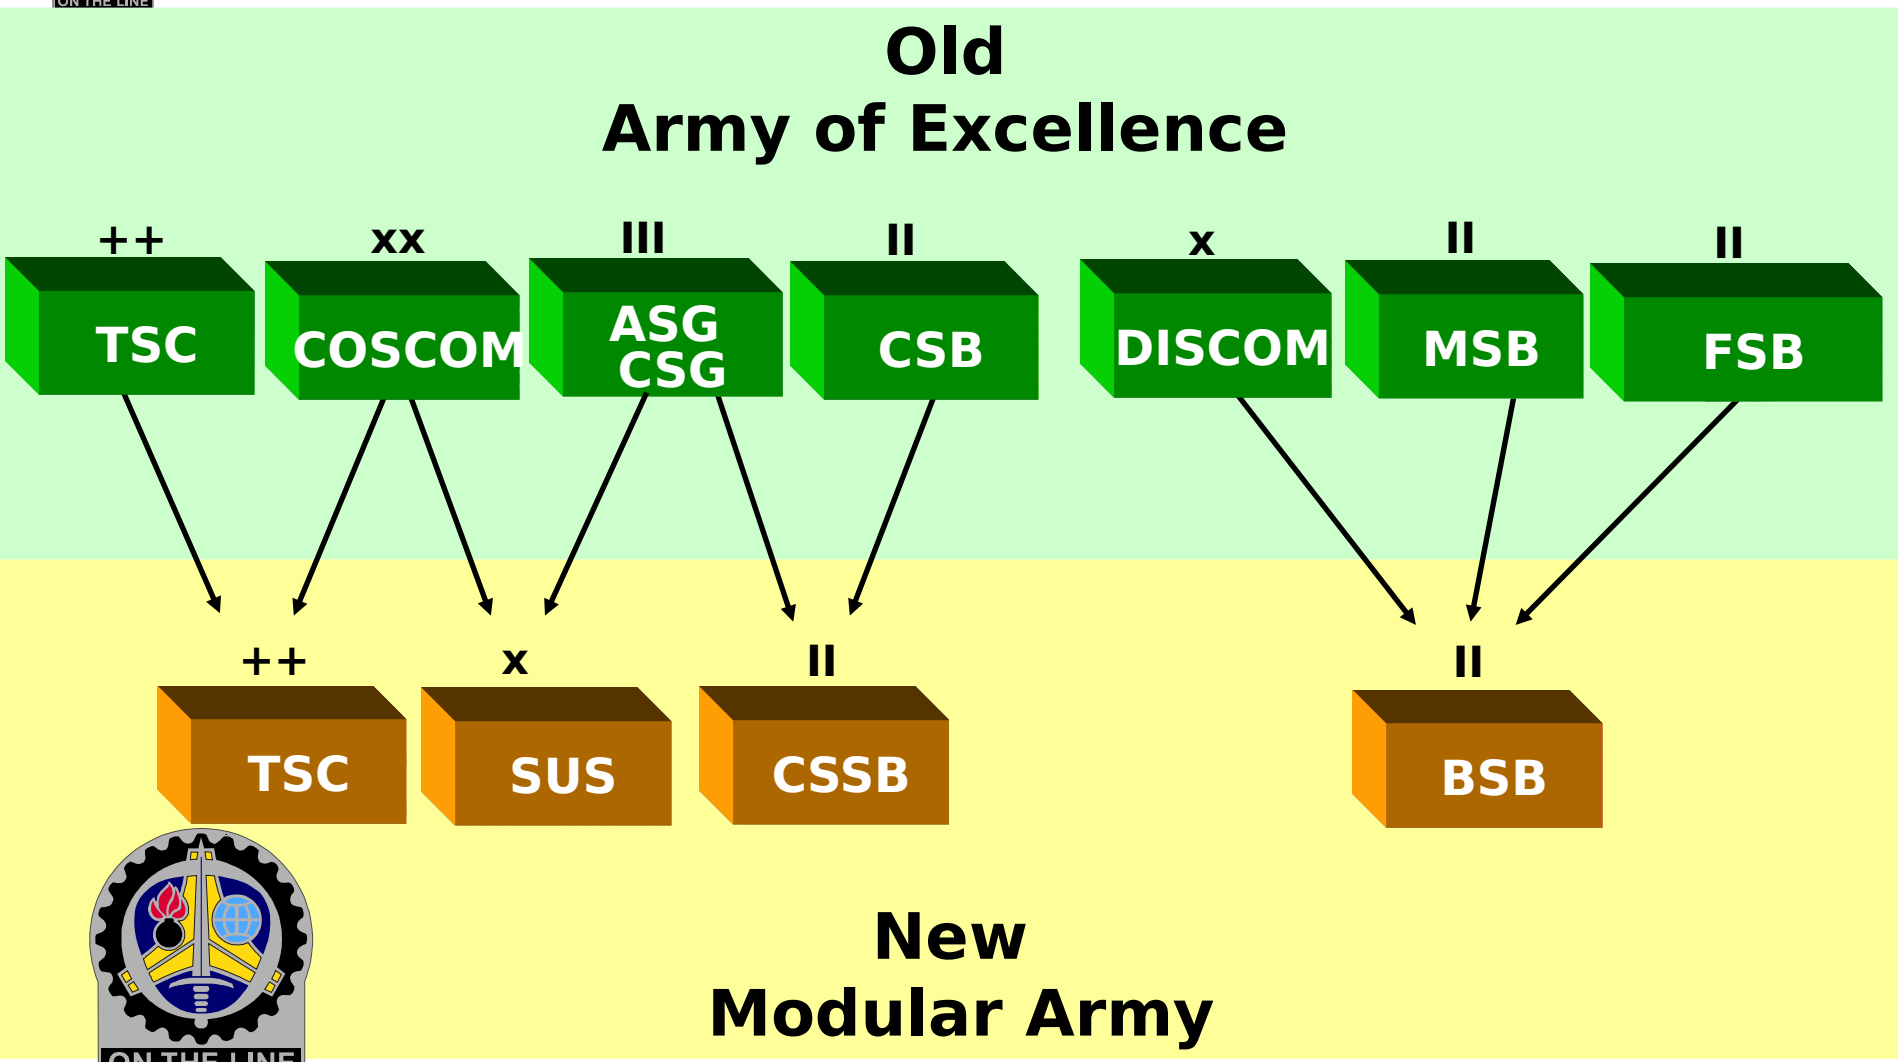
Standard, broad, embedded

Inherently linked to other services

Modular support with functional Brigades

Functional Brigades: Aviation, Support, Stryker

Logistics Support to Modularity



Transformation Redesign

Visibility of Fleet Readiness

How AMC works as a single face to the field to provide logistics readiness from a unit level to a global Army picture

Army Sustainment Command
DMC

ISSUE SOLVED

GUN TUBES ARE AVAILABLE TO SUPPORT THE TWO INCOMING BCTs IF NEEDED

WHOLESALE STOCKS ARE REPLENISHED FOR FUTURE NEEDS

HQDA **AMC** **LCMC**

AUTOMATION AND DMC RESOURCES ARE LEVERAGED TO MEET BCT RDD TIMELINES AND READINESS REQUIREMENTS

AFSB

ANALYSIS IS MADE FOR REGION USING ORF, LBE, PDTE AND PROJECT STOCKS

DETERMINATION IS MADE THAT RESOURCES ARE NOT AVAILABLE AND PROCUREMENT CYCLES ARE INADEQUATE

DMC GETS INVOLVED

LSE

TWO MORE BCTs ENTERING RESET IN THE NEXT 90-120 DAYS

CONCERN RAISED THAT THERE WONT BE GUN TUBES IF THESE UNITS HAD SIMILAR OPTEMPO

AFSB GETS INVOLVED

LSE GETS INVOLVED

GUN TUBES ORDERED AND SHIPPED TO MEET REQUIREMENTS DEPLETING WHOLESALE STOCKS

START

BLST

BCT ENTERS ARFORGEN CYCLE AT RESET ACTIVITY

INITIAL INSPECTION OF ARTILLERY UNIT COMPLETED

SEVERAL GUN TUBES NEED TO BE REPLACED

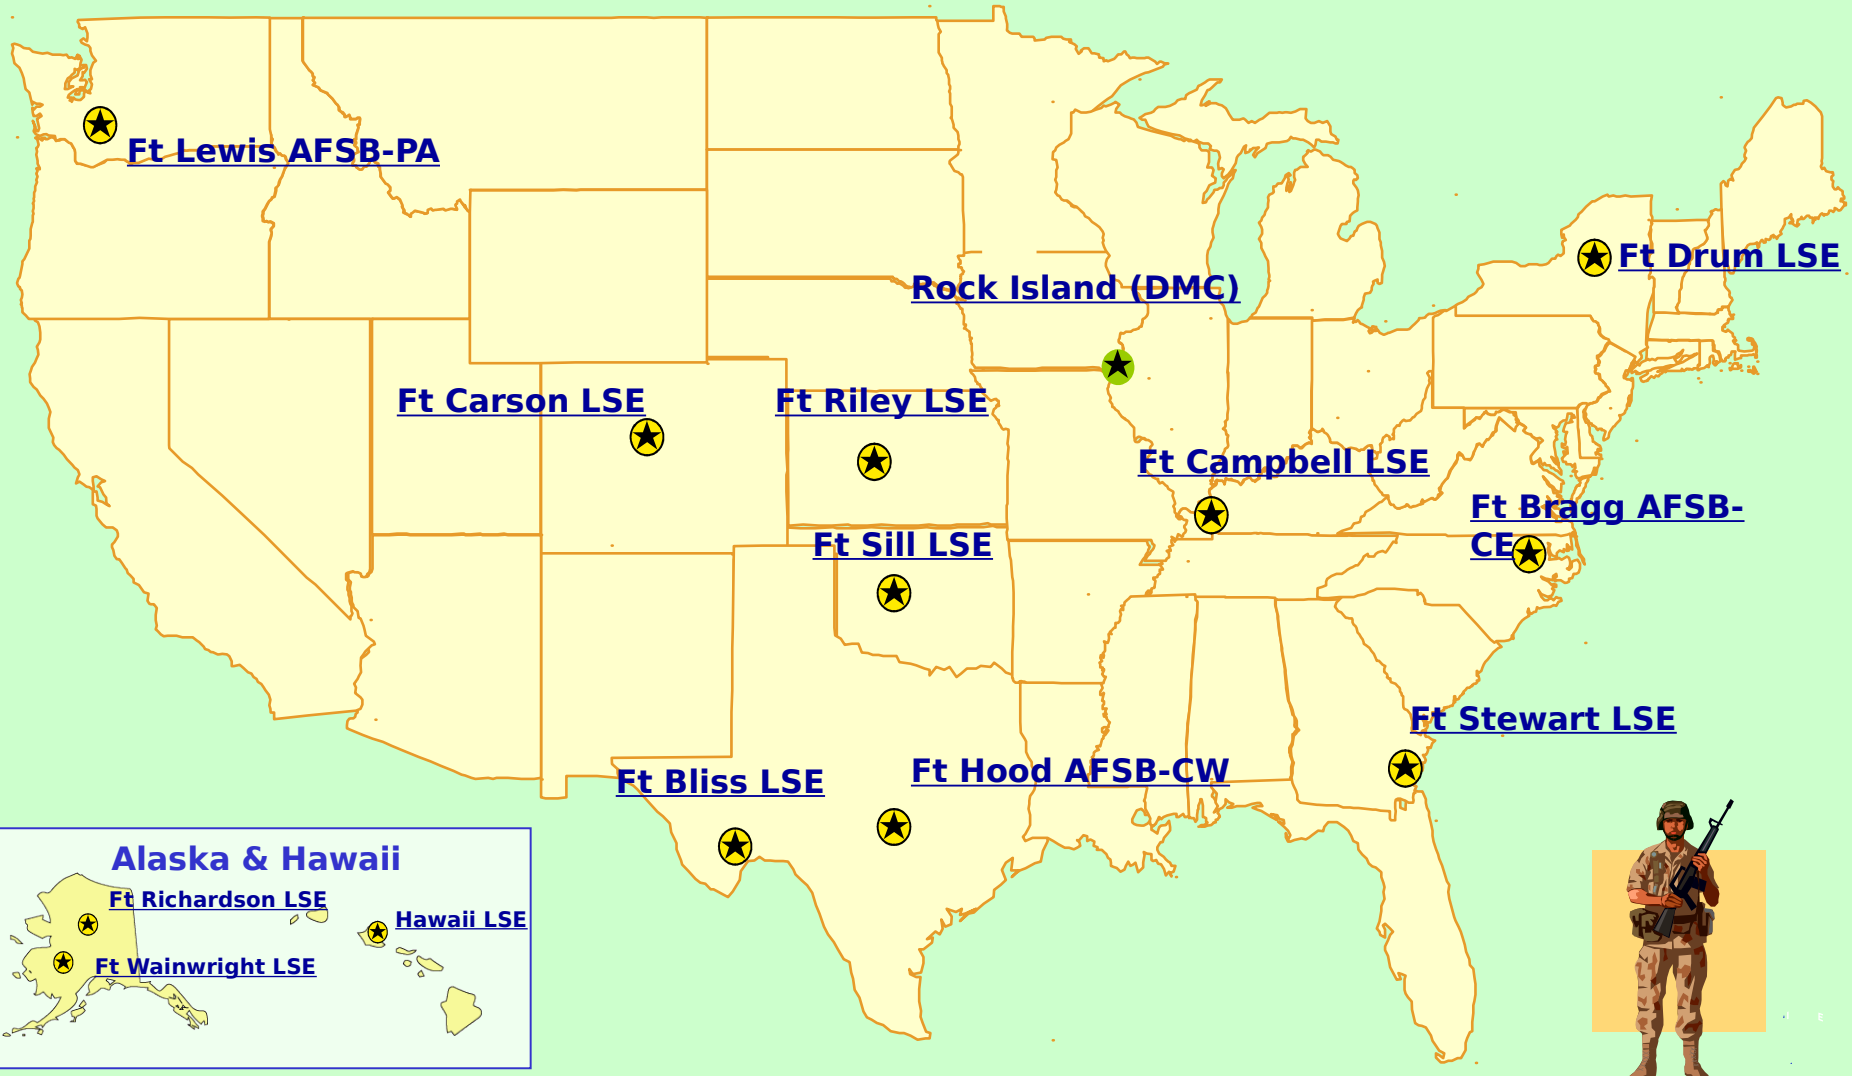
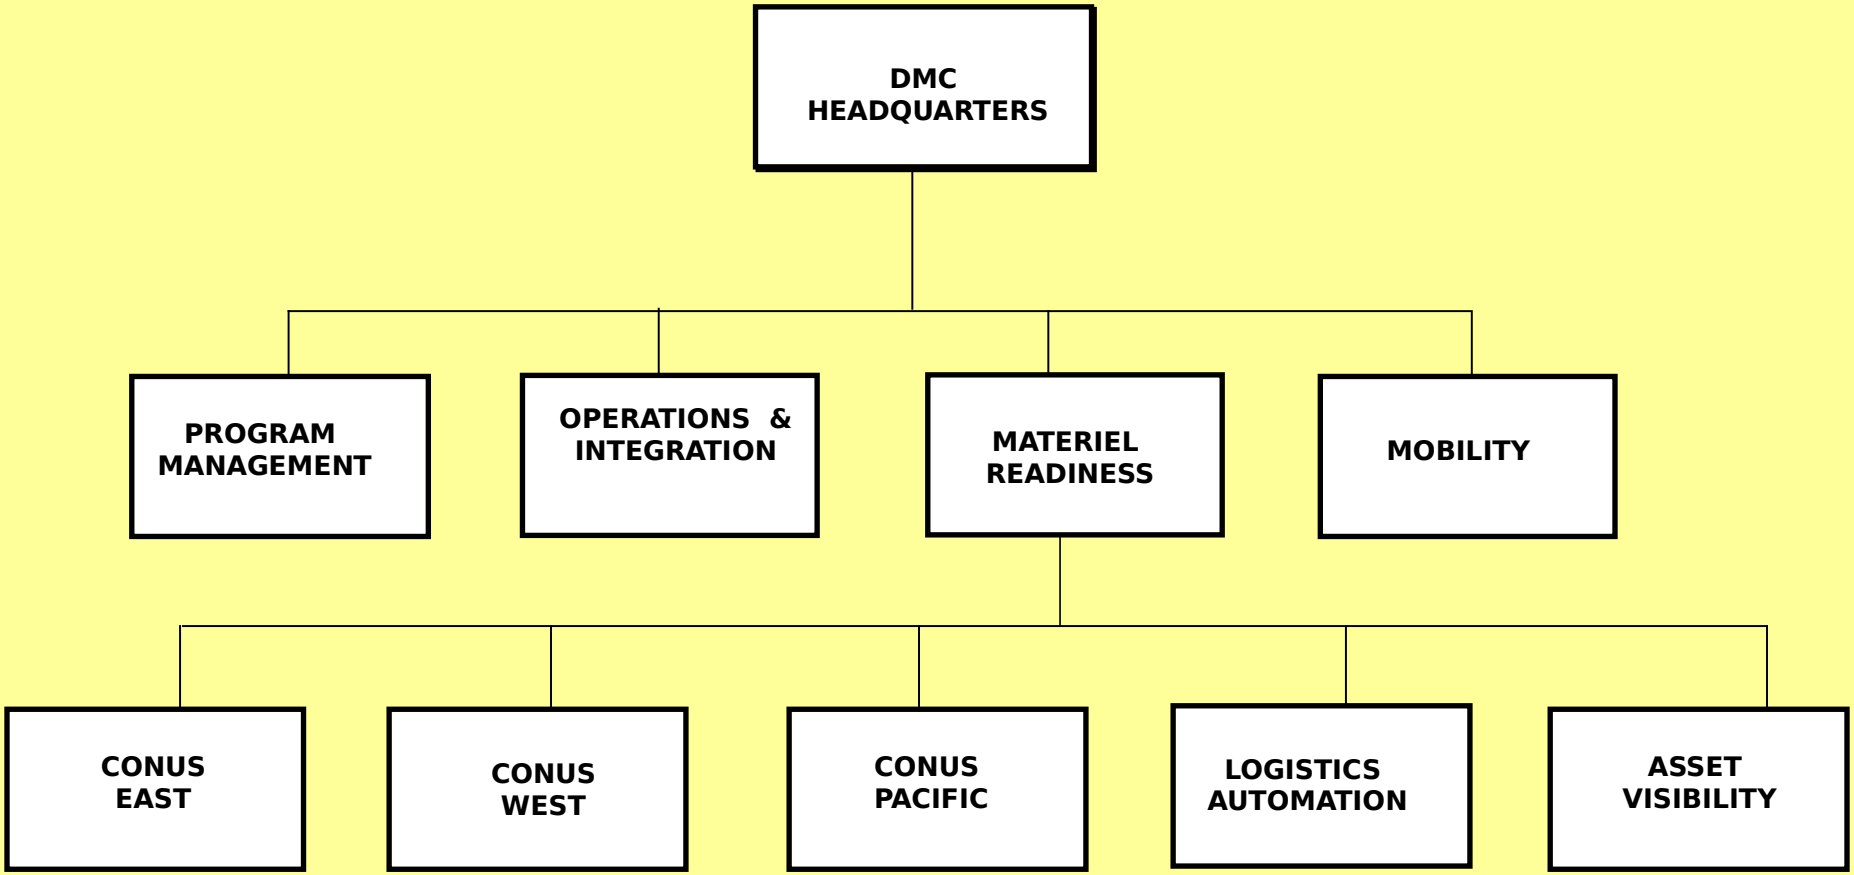
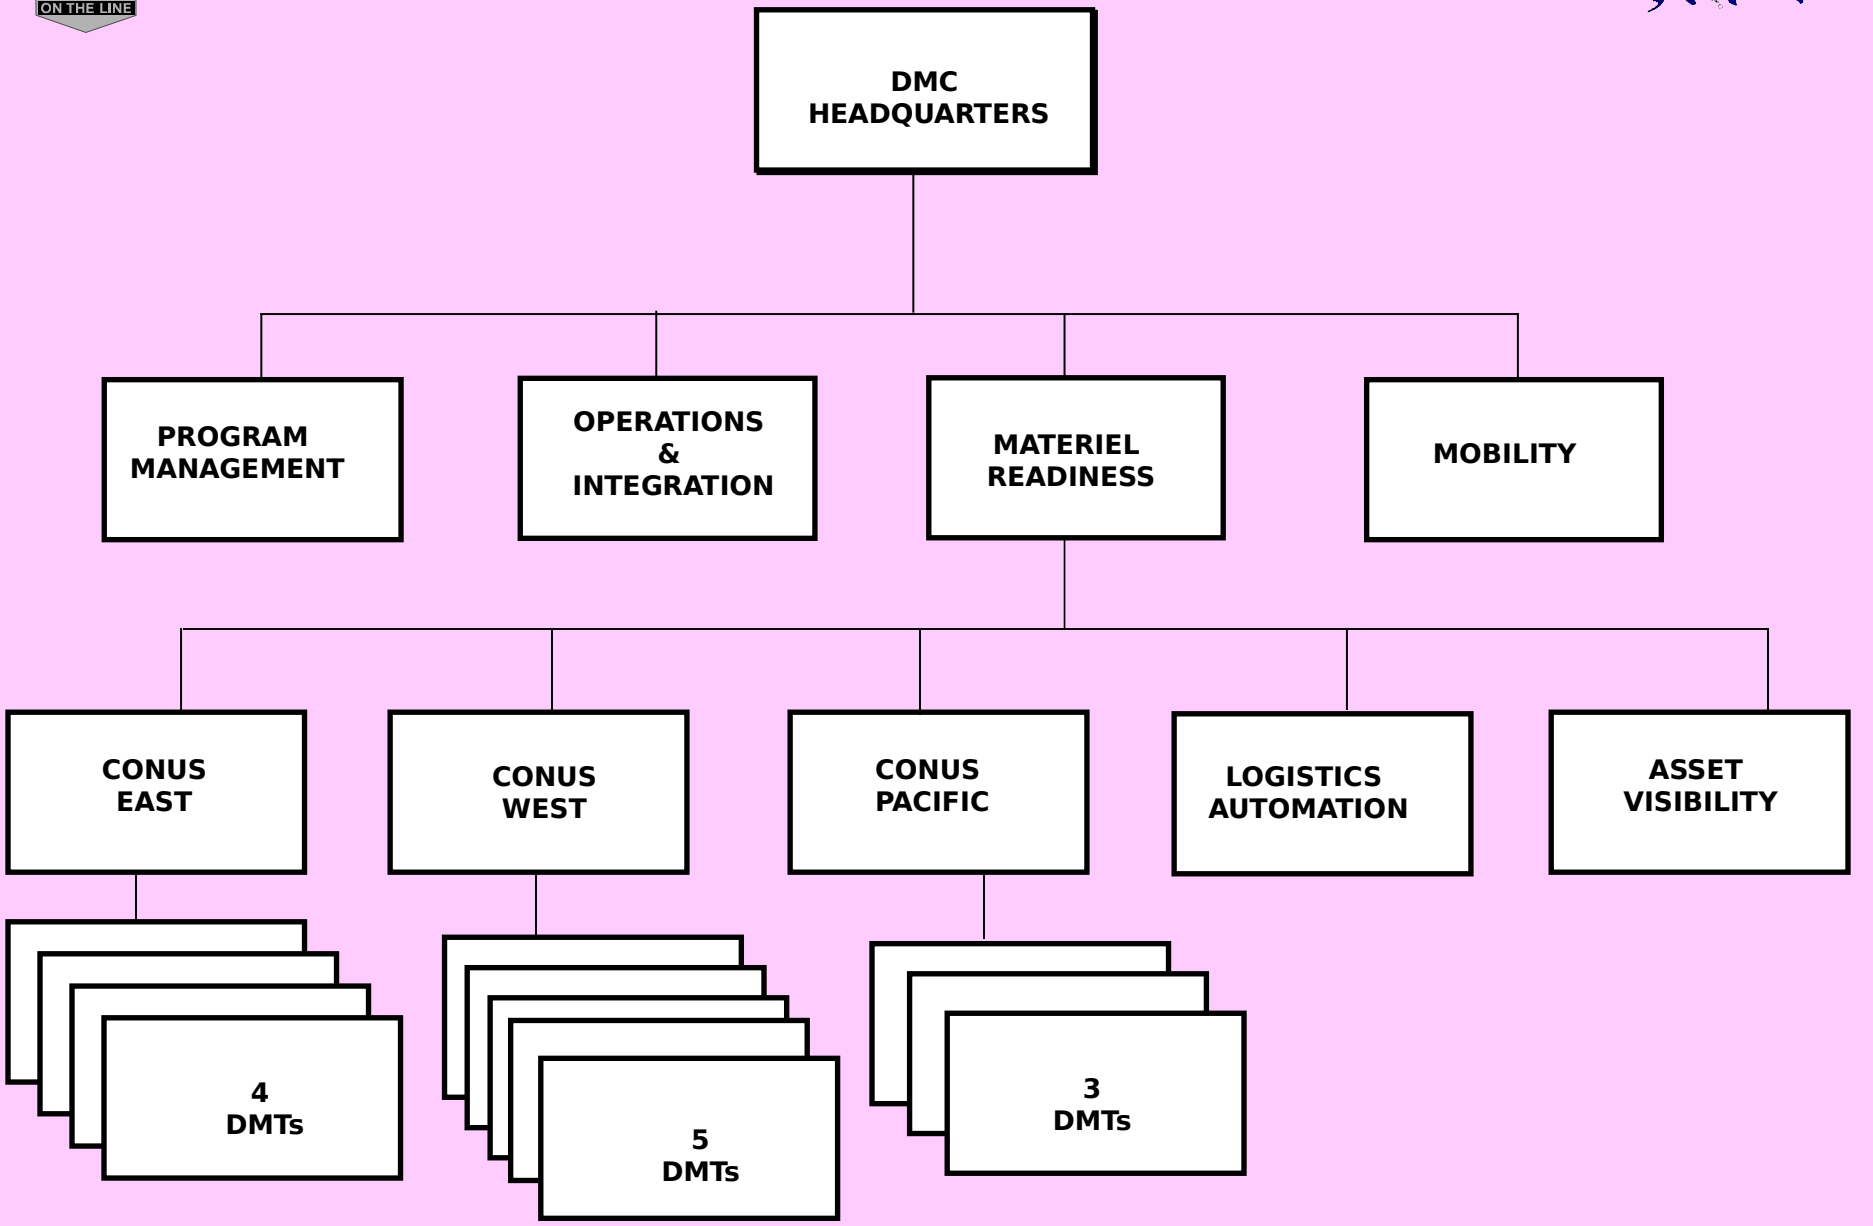
Providing the Field Materiel Management Support



DMC Organized for Success



DMC's Conduit to the Customer



ASC-DMC Mission Three Major Components

The ASC-DMC Mission is to:

- ✓ Provide centralized maintenance and materiel management for a transforming Army at War
- ✓ Be Executive Agent and Program Manager for Field Maintenance Reset
- ✓ Leverage automation to provide a Logistics Common Operating Picture

Provide Centralized Maintenance and Materiel Management for a Transforming Army at War

- ✓ Integrate equipment status/availability into the build of ARFORGEN units
- ✓ Project readiness availability to meet Mission Readiness Exercise and deployment dates
- ✓ Identify shortfalls and develop corrective actions
- ✓ Provide SARSS-2A Class II, III(P), IV and IX supply management support to CONUS units
- ✓ Leverage assigned DLA and LCMC LNOs to resolve unit logistics issues and improve readiness
- ✓ Validate ARFORGEN equipment distribution plans for cost effectiveness and recommend efficient options to meet required gates

Executive Agent and Program Manager for Field Maintenance Reset

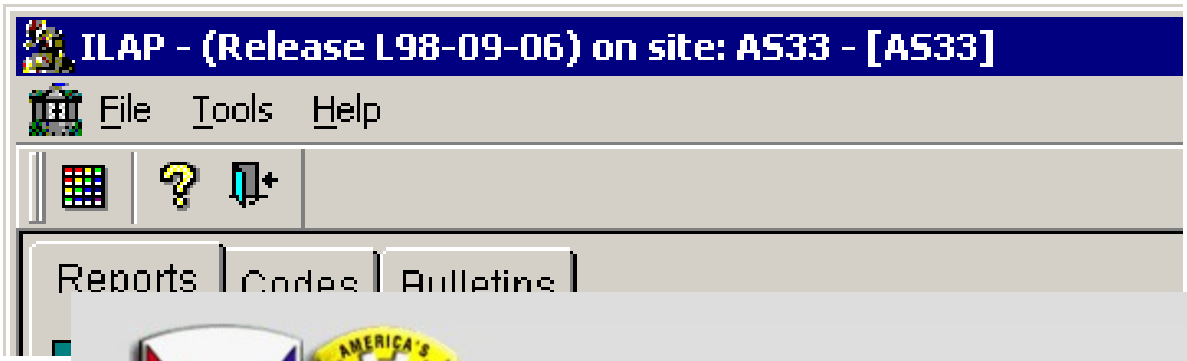
- ✓ Track and report status of Field Maintenance Reset of units
- ✓ Synchronize and integrate Service Provider maintenance capabilities to readiness requirements
- ✓ Provide prioritization guidance to LCMC, DLA and DOL in support of units or equipment in the ARFORGEN cycle
- ✓ Provide asset visibility of the transportation pipeline to detect delays in movement; provide depots with visibility of due-ins

Leverage Automation to Provide a Logistics Common Operating Picture

- ✓ Identify and map common data requirements
- ✓ Develop interim and long term solutions to data mining and organization
- ✓ Create and distribute information management models
- ✓ Enable key decision makers to use the best available data via the fastest means

ASC and LOGSA

Teaming together for data sharing and mission success



LOGSA

Providing an Added Value

- ✓ Provide Field Maintenance Reset business rules
- ✓ Coordinate all Field Maintenance RESET efforts (with LSE and DMT)
- ✓ Eliminate redundancy
- ✓ Resolve competing priorities
- ✓ Provide national visibility
- ✓ Unify information needs
- ✓ Standardize materiel management operating procedures among installations

3-Phased Implementation

Sequence of Events

DMC MATERIEL MANAGEMENT TRANSITION PLAN SEQUENCE OF EVENTS				
Ref #	**Task**	**Action Agency**	**Start**	**Finish**
1	Coordinate and conduct Kick Off teleconference with personnel from FORSCOM, DMC, AFSB, LSE, MMT, Corps/Division G-4, BCT SPO, Sustainment Brigade SPO, and DOL. Publish agenda to be followed to include time to discuss lessons learned.	DMC Plans, Operations & Integration	C-45	C-30
2	Review standard LIW supply and maintenance reports for transitioning installation activities.	DMC Readiness Division	C-45	C-Day
3	Provide DMC staff Points of Contact List to above participants.	DMC Plans, Operations & Integration	C-30	C-28
4	Establish weekly teleconference schedule with transitioning installations.	DMC Plans, Operations & Integration	C-30	C-28
5	Provide electronic copy of current supply performance and readiness reviews to DMC Log Automation Reports & Analysis Section.	Division G-4, BCT SPO, DOL, MMT	C-30	C-23
6	Develop customer support base listing to reflect all on installation.	DMC Readiness Division	C-30	C-23

Task Migration Matrix

This Task Migration Matrix provides a Reference Number listing of materiel management functions that will either transfer from the MMT/installation to the DMC, or be shared by both organizations. Specific responsibilities are posted under each responsible agency.

SUPPLY MANAGEMENT TASKS

REF	TASK	DETAIL DESCRIPTION	FREQ.	BDE	IMCOM	MMT	DMC	LOGSA CTASC
1	AFB-UP Clean-up	Conduct ABF Clean Up	Monthly				Execute Clean-up after verification of batches received(LS)	
2	AFB-UP Process	SARSS-1 will run scheduled ABF UP	Monthly	Run ABF-UP Process and forward batch number(s) to the LOG Auto Branch at DMC	Run ABF-UP Process and forward batch number(s) to the LOG Auto Branch at DMC	Ensure scheduled ABF-UP(s) are conducted	Receive batch numbers(s) from BDE(s) and IMCOM(LS)	
3	ASL Management	Work with to provide ASL analysis. Crosswalk ASLs and provide comparative data. Research variations and provide recommendations to optimize individual ASLs through Best Business Practices. Work ASLs that exceed management level and for units of interes	Monthly	Scrub Reports	Scrub Reports	Distribute and assist the BDEs & IMCOM with reports	Produce and distribute reports to the MMT and work ASL Zbal for ASLs that exceed mgmt lvl and units of interest(R&A/READ/SUP)	

Yesterday- Today - Tomorrow

- ✓ ***Success Then***
- ✓ ***Success Now***
- ✓ ***Success in the Future***

Yesterday

- ✓ **SARET - Parts Funding**
- ✓ **Reset more than 20 Brigade-sized units**

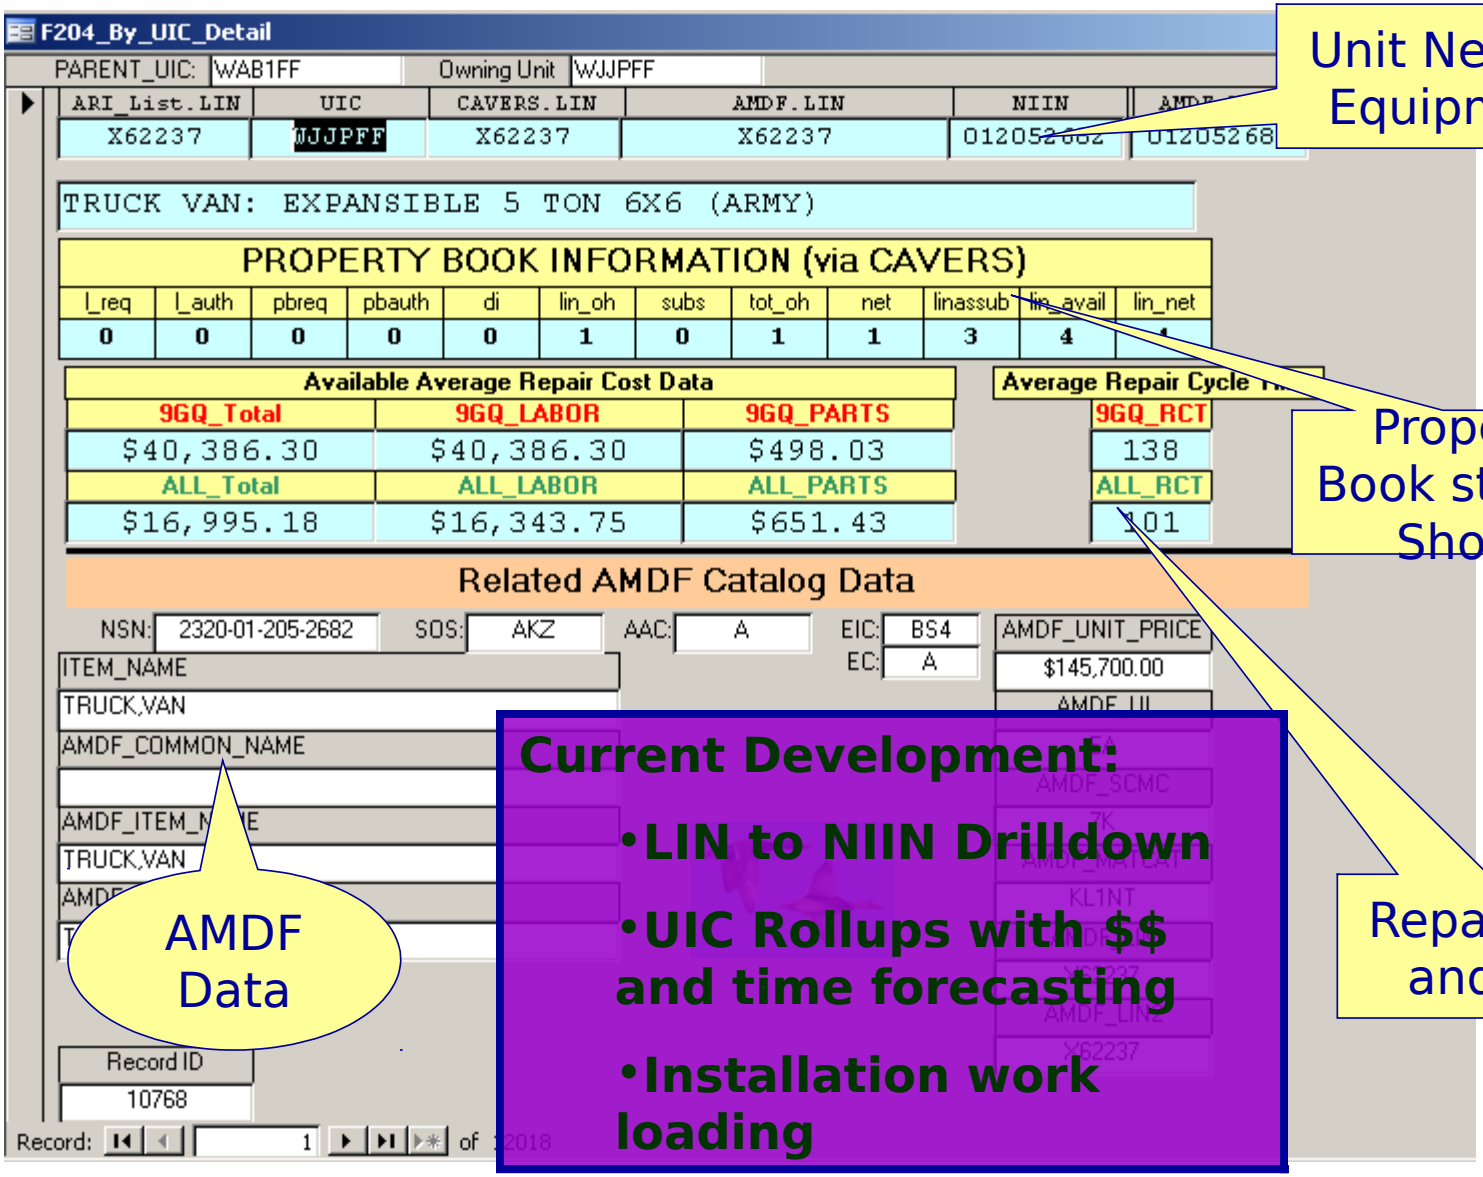
4th Infantry Division	3d Infantry Division
10th Mountain Division	82d Airborne Division
1st HBCT, 1st Infantry Division	3d Stryker BCT, 2d Infantry Division
3d Brigade, 1st Armored Division	3d Armored Cavalry Regiment
101st Air Assault Division	1st Cavalry Division

- ✓ **Brigade Combat Team Acceleration**
  - Problem – Shortages, maintenance, timeframe collapse
  - Solution – Intense management, data mining, locating materiel
- ✓ **Route Clearing Equipment**
  - Problem – Changed fielding plan and shortages of parts
  - Solution – Alternate suppliers, shipping schedule changes, locating materiel
- ✓ **Frame Rails**
  - Problem – Production planning failed to meet needs
  - Solution – Research, coordination, recommended substitute items

Today

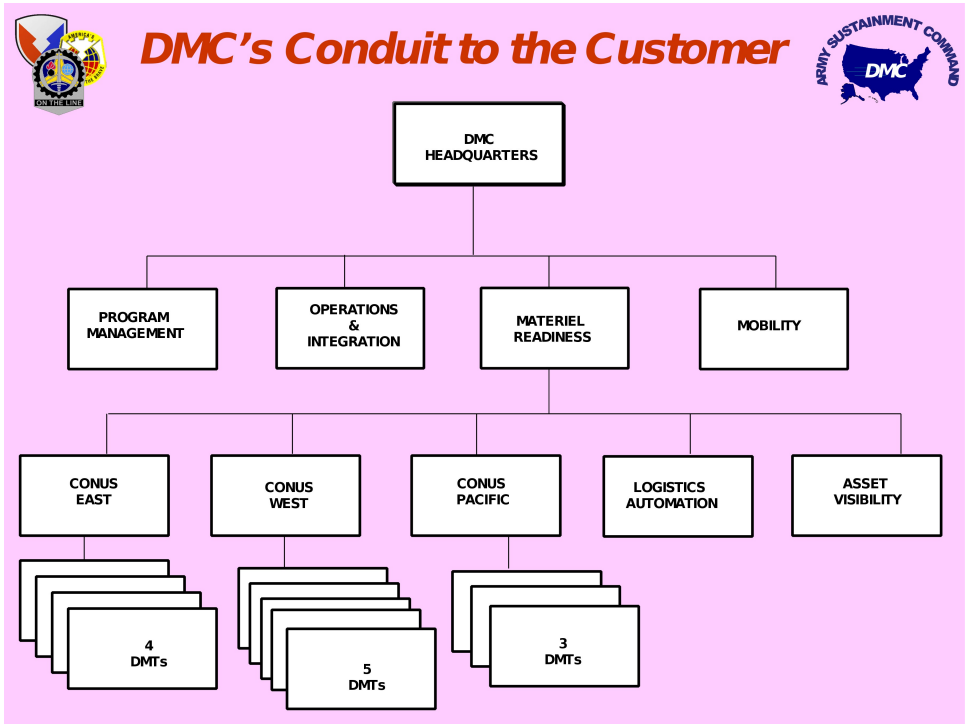
- ✓ **Custom application development**
  - ➢ **Automated RESET forecasting tools**
  - ➢ **Automated research assistance**
- ✓ **Specialized training and education**
  - ➢ **Growing logisticians**
  - ➢ **“How To” guides for common requirements**
  - ➢ **Group and individual training**

DMC Reset Tool



Future

- ✓ **BCT forecasting – Growing the product**
- ✓ **Tracking historical based forecasting against actual expenditures**
- ✓ **Standardizing Automated Analyses**
  - ➢ **MS Access at heart**
  - ➢ **Automatic processing requiring minimal operator skills**
  - ➢ **Output tied to real users email**
- ✓ **Extending awareness of DMC capabilities for:**
  - ➢ **Product development**
  - ➢ **Problem solving**
  - ➢ **Business process improvement**
  - ➢ **Education and training**

Summary


- ✓ **Provide centralized maintenance and materiel management for a transforming Army at War**
- ✓ **Executive Agent and Program Manager for Field Maintenance Reset**
- ✓ **Leverage automation to provide a Logistics Common Operating Picture**
